

MOBBED A MOTORMAN.

Lynching Prevented by Timely Arrival of Police.

AN EXCITING SCENE IN CHICAGO.

Motorman Bernier Runs Down a Boy and Has a Narrow Escape from Being Lynched by Some Enraged Bohemians—Escapes to a Drug Store Where the Mob Is Kept at Bay Until the Arrival of the Police.

Chicago, Dec. 26.—George E. Denmark, 7 years old, was killed by a trolley car at Throop and Eighteenth streets Friday afternoon. Fred Bernier, motorman, was threatened with lynching for killing the boy, and was with great difficulty rescued from a mob of Bohemians who, incensed at the accident, surrounded the car and dragged Bernier from the platform, determined to hang him. Patrick Hanley, the conductor, managed to save Bernier from the mob and then a riot call was sent to the Maxwell street station. The police took charge of the motorman and conductor and locked them up. After the boy had been killed Motorman Bernier took refuge in the car, which stood still within a few feet of where the boy was killed, and in an instant it was besieged by angry men.

Broke the Door In. He attempted to keep them out by latching the doors on the inside, but they broke the door in, knocked him down, and kicked and beat him for a few moments in a shocking manner. He managed, however, to get away from them and ran to the door of a drug store, where he also was handed a pistol, and was admitted inside by Mr. Kvitke, proprietor, before any further harm befell him. The crowd surged around the door, yelling: "Break it in. Kill him, kill him!"

It looked for a moment as if the store would be raided, but the proprietor brought out a Winchester rifle and pointing it at the door, threatened that the first man who entered would drop dead. The crowd believed what he said, and dropped back.

Policemen on the Scene.

In the meantime, Mr. Kvitke had also called his telephone. He called on the Maxwell station first for an ambulance, but by that time matters had got so warm that he requested a patrol wagon. In a few moments the wagon brought a load of blue coats, who did all they could to quiet the mob.

When some degree of quiet had been restored the police arrested the endangered men and took them to the station. There the men seemed unconcerned and declined to make a statement. There were many versions given of the accident. People living in the neighborhood say they had been expecting of the kind for a long time, and were only surprised that it had not happened sooner.

NEWS OF THE STATE.

MICHIGAN ITEMS THAT WILL INTEREST OUR READERS.

Some of the Important Happenings of the State Picked Up Here and There and Reported by Telegraph—Summary of Events of the Past Few Days.

Iron Mountain, Mich., Dec. 28.—C. B. Pride, the well-known hydraulic engineer and paper mill architect of Appleton, Wis., has just completed a survey of a water power on the Ontonagon river to be improved during the coming year by Ohio capitalists.

The power is situated about twelve miles from Watermeet, in Gogebic county, and the Lake Shore division of the Chicago and Northwestern railway runs within a mile of it, and will undoubtedly be extended to the falls.

Mr. Pride says there is a 116-foot fall inside of 1,000 feet, and he expects to generate 3,000 horse-power. From the same source it is learned that it is the intention of the company for whom the survey was made to erect a large tannery, saw mill and paper mill. The manufacturing plant will be one of the most extensive in the upper peninsula and will furnish employment for hundreds of men. A town will be located in the immediate vicinity of the plant. The members of the company own sufficient timber in the vicinity to keep several factories in operation for a long term of years.

WANT A \$1 LUMBER TARIFF.

Menominee River Lumbermen's Letter to Congressman Stewart.

Marquette, Wis., Dec. 26.—At a meeting of the Menominee River Lumbermen's association a committee was appointed to frame a letter setting forth the tariff desired by the Menominee river lumbermen. The letter will be forwarded to Congressman Stewart of the Ninth congressional district. Mr. Brown, one of the members of the committee, said that the letter would put the lumbermen on record as favoring the tariff of 1890, which required a duty of \$1 a thousand on manufactured lumber. Besides the tariff matter, a great deal of information about the cost of manufacturing lumber, including the cutting of the tree, floating of the log, boomage, sawing, etc., will be sent to Mr. Stewart. All the facts that could be given him were sent away, so that he will have plenty of ammunition on Dec. 31, when the matter of the tariff on lumber and manufactured woods comes before the ways and means committee.

Mr. Brown says that the National Lumber Tariff association is doing great work to help the cause of the lumbermen. The \$1 tariff resumption will undoubtedly find favor with the ways and means committee he thinks, and will eventually become the new duty.

ONTONAGON RIVER IMPROVEMENT.

Water Power Will Be Converted to Manufacturing Uses.

Iron Mountain, Mich., Dec. 26.—C. B. Pride, the well-known hydraulic engineer and paper mill architect of Appleton, Wis., has just completed a survey of a water power on the Ontonagon river to be improved during the coming year by Ohio capitalists. The power is situated about twelve miles from Watermeet, in Gogebic county, and the Lake Shore division of the Chicago and Northwestern railway runs within a mile of it, and will undoubtedly be extended to the falls.

Mr. Pride says there is a 116-foot fall inside of 1,000 feet, and he expects to generate 3,000 horse-power. From the same source it is learned that it is the intention of the company for whom the survey was made to erect a large tannery, saw mill and paper mill. The manufacturing plant will be one of the most extensive in the upper peninsula and will furnish employment for hundreds of men. A town will be located in the immediate vicinity of the plant. The members of the company own sufficient timber in the vicinity to keep several factories in operation for a long term of years.

SEEKS EVIDENCE OF DEATH.

Big Fortune Depends on the Existence of an Oregon Miner.

Portland, Ore., Dec. 26.—Miss Mary Ellen Thaxter of Sedalia, Mo., is here endeavoring to obtain confirmatory evidence of the death of her father, Everett Thaxter—if he be indeed dead—in order to expedite the distribution of a half-million-dollar estate in St. Louis, in which she is interested to the extent of \$250,000. Ten years ago Mr. Thaxter left his home, coming west, and the last five letters Miss Thaxter received from him were postmarked "Oswego, Ore."

That was about five or six years ago. Then correspondence between father and daughter ceased. About that time Thaxter was known to live in the neighborhood of Oswego, prospecting, and otherwise laboring, having as a chum one Frank Merrick. In the fall of 1892 Merrick circulated the story that his partner had gone back to his home in Missouri. This was credited up to three months ago, despite the fact that Thaxter's few acquaintances never again heard of him. His skeleton was found at the bottom of a well and suspicion pointed to Merrick, who was, however, killed accidentally a short time ago.

MURDERED BY MINERS.

Patrick Carney Shot by Missourians in Leadville.

Leadville, Dec. 26.—About 2 o'clock Saturday morning Missouri miners employed at the Bison mine, who were on their way home from down town, met Patrick Carney and his wife, who had been attending a ball. The Missourians called Carney across the street and talked to him a few minutes. Then one of them shot him, killing him instantly.

Carney was an elderly man, well known in the camp, and was a "leaser," working on the Star mine. The Missourians were all arrested, but it is not known yet which one of them fired the fatal shot. From the standing of Carney in the community, it is feared that his murder will cause considerable trouble, as the Miners' union people are highly incensed over it.

ONE MAN'S SUFFERING.

The Trials and Tribulations of a Battle Creek Citizen—How He Comes to Tell This Story.

(From the Battle Creek Moon.)

Among the moulders at the works of the Michigan foundry company can be found Mr. Amos Maynard; he has lived in Battle Creek for over ten years, is honored and respected by all who know him; such is the man who makes this statement, he says: "I have had kidney trouble for years, and it has made my life miserable. The heavy lifting, necessary in my business, made me worse. I have been compelled to lie in bed in a helpless condition for as long as nine days at a time; the greatest pain was from my back, which sometimes felt as though a bayonet was being run through me in the region of my kidneys; many citizens of Battle Creek knew how bad I was. I could not move without the greatest caution, for as soon as I attempted to stoop over, the pain to one side, or even turn in bed, the pain was simply unbearable. I wore porous plaster constantly for the little temporary relief they brought me. Whenever I caught the slightest cold it went straight to my kidneys and made me worse. I was advised to try Doan's Kidney Pills, and got some. I have taken in all four boxes of them, and I now feel as active as ever. A few months ago I would have ridiculed the idea of being cured so quickly, and being able to work as I can now. All the long-standing pains are gone, and the former traces of kidney disorders found in my urine have disappeared. I have recommended Doan's Kidney Pills to many friends who were troubled as I was, and in every case I have learned they proved as beneficial as with me. Doan's Kidney Pills would be cheap to me at almost any price."
